Technos Emergency Repair Rescues another Customer

A Central Texas concrete plant called Technos on Tuesday needing immediate assistance with a dust collector fan. Later that same day a field crew was onsite removing the entire fan assembly for expedited shop repairs. These repairs included a complete new fan and shaft assembly, new bearing pedestal top plate, new bearings, new sheave bushings, new motor base, new belts, inlet cone repair, and shaft guard modification. By Friday morning the Technos crew was installing the refurbished and freshly painted fan assembly to get the customer's dust collection system back in operation!

- Coal Hoppers
- Shaft Seals
- Separators
- Shafts
- Classifiers
- Ducting

Technos Takes Time to Improve during Slowed Economy

As have most companies this year, Technos Corporation has experienced a reduction in sales from previous years. But being optimistic about the future, we are using this opportunity to refurbish machinery, update all safety training, overhaul field service vehicles, and get prepared for the return to prosperity. We'll be ready when the economy improves and our customers' production capacities return to normal. We see the light at the end of the tunnel and look forward to continuing our growth in the fan manufacturing and repair industry.

Technos Capabilities

In Texas, Technos Corporation Fan Services is located on 10 acres five miles northeast of San Antonio with two large state-of-the-art facilities fully equipped with multiple welding machines, CNC cutting machine, positioners, lathes, press brake, mills, and precision balancing equipment. Our Technos facility in Alabama is located in Bessemer and is equipped to handle all of your fan manufacturing and repair needs as well.

Technos Corporation Fan Services has the expertise to design, fabricate, and install all types of industrial fans; including wheels, shafts, housings, dampers, expansion joints, and wear-resistant liners specifically designed for your requirements.

Technos Corporation Fan Services field crews are full-time employees certified and trained in all phases of fan repairs and safe installation. We respond to your emergencies and work safely to complete the job. Technos Corporation Fan Services never uses any temporary laborers.

Technos Corporation Fan Services offers the most competitive in-shop and field service rates in this business and we are ready to fulfill all of your industrial fan needs, 24 hours a day, 7 days a week.

From the **TECHNOS** tailgate: *Panama Jane's Hot Sauce*

Drain a 14.5 oz. can of tomatoes (Glen Muir Fire Roasted is best!), add 1 teaspoon salt, 1 teaspoon garlic powder, 1 teaspoon crushed red pepper. Put in blender for a couple of seconds only, don't foam it. Put in bowl and mix in 1/4 cup corn oil or olive oil. Refrigerate; the longer it sits the more flavorful it becomes. Cilantro can be added as a tasty option.

Now enjoy with your favorite tortilla chips!
